

Empowering Today's Vision for a Brighter Tomorrow

UEI: H7SHG3YW2TX8

CAGE: 9SRV7

DUNS: 032112553

Florida Certified Minority-Owned Electrical & Low-Voltage Contractor

CAPABILITY STATEMENT

CORE COMPETENCIES

Networking Milestones delivers mission-ready structured cabling and low-voltage infrastructure designed to meet federal, state, and municipal requirements. With over 25 years of combined industry experience, we provide code-compliant, high-reliability solutions that support secure, modernized environments.

SPECIALIZED CAPABILITY

- Structured cabling design and installation (CAT6/CAT6A)
- Fiber optic installation, splicing, and testing
- Low-voltage electrical systems
- Cable management, labeling, and standards compliance
- Moves, adds, and changes (MAC)
- Copper and fiber troubleshooting and certification
- Server room buildouts, rack installation, and organization

PAST PERFORMANCE

AMTRAK (2025)

Installed CAT6 cabling to support security camera infrastructure, improving reliability and surveillance coverage.

Camp Lejeune Marine Corps Base (2024)

Supported installation and operation of a campus-wide paging system at an elementary school, enhancing communication and safety.

UNC Health (2022–2024)

Performed rack relocations, fiber/copper installation, splicing, and network assessments across multiple facilities.

North Carolina A&T State University (2024)

Replaced outdated wireless access points with upgraded APs, improving campus-wide connectivity.

Switch Atlanta (DELL) (2022)

Assisted with server and network switch installations, strengthening data center operations.

CERTIFICATIONS

- Licensed Contractor, Florida
- Florida Certified, Minority-Owned Contractor
- BICSI Corporate Member
- OSHA 30 Certified (Leadership)
- OSHA 10 Certified (Technicians)
- OCC Certified Installer

SYSTEMS SUPPORTED

- Structured cabling systems (CAT6/CAT6A, patch panels, racks)
- Fiber optic systems (single-mode and multi-mode)
- Security and surveillance systems
- Audio/Visual (A/V) systems
- Wireless and network systems

NAICS CODES

- **238210** - Electrical and Other Wiring Installation Contractors
- **561621** - Security System Services
- **236220** - Commercial and Institutional Building Construction
- **517121** - Telecommunications Reseller
- **517810** - All Other Telecommunications
- **238990** - All Other Specialty Trade
- **238290** - Other Building Equipment
- **335921** - Fiber Optic Manufacturing
